UNIT 3 QUIZ B AUDIO SCRIPT

Listening 1 Exercise A

Peter Good morning, Anna. Welcome to Smart Interior Design. My name is Peter Hall, and I'll be your interviewer today.

Anna Nice to meet you, Peter.

Peter Please take a seat.

Anna Thank you.

Peter First of all, thank you for sending us your résumé. It's a very impressive one, especially for someone your age.

Anna Thank you.

Peter Well, as you know, this is a part-time position, and the hours are all day Friday and Saturday. I understand you are available on those days.

Anna Yes, I am.

Peter Good. Now, I can see from your résumé that you are studying interior design at the Art and Design Institute. Can you tell me what you like about interior design?

Anna Well, I've been interested in design from a young age. I've always loved mixing together different materials, colors, styles. I find it very satisfying to think about a space and combine all the different elements in order to create a harmonious room. I really enjoy designing a place that will make people feel happy.

Peter That's perfect. One of your main jobs would be to help the designers prepare and present the mood boards – you know, the boards with our suggestions for colors, objects, styles that show a client our ideas for the project.

Anna Oh, that would be fabulous! I have a lot of experience in creating mood boards.

Peter I thought so. Now, you would also have to interact with some of the clients. How would you feel about that?

Anna I would really enjoy that. I consider myself an extrovert, and I love socializing and meeting new people. That's another aspect of the profession that really interests me.

Peter Good to hear that. Now, Anna, what made you interested in working with us at Smart Interior Design?

Anna I've always admired your work. Since the first time I saw some of the stunning projects on your webpage, I thought I would really enjoy working here. Also, several of your designers have won awards and are highly respected professionals. I feel I could learn a lot if I had the opportunity of working with them.
